

Overview of the Oct 2014 3W KACHIN – Village level / Non-IDP Response

The MIMU 3W gathers inputs from participating humanitarian and development agencies on **Who is doing What, Where**, across Myanmar. This exercise is currently conducted every 6 months, gathering information on agencies' activities at village/township level (MIMU Village level 3W) as well as in IDP camps (MIMU Camp 3W).

189 agencies contributed to the October 14 3W, providing information on their activities in the 19 sectors and 142 sub-sectors defined through the existing technical/sector working groups. There is still likely to be under-reporting of the specific activities of field-based local NGOs and CBOs.

This Overview describes reported Projects under Implementation with Non-IDP beneficiaries at township, village tract or village level in Kachin as of November 3, 2014. Hence it includes activities with mixed beneficiary populations (non-IDP and IDP), but does not include interventions which were specified as "IDP-only".

Further information on **planned and recently completed** projects is available from the 3W dataset, published on the MIMU website and, at a glance, through the **MIMU 3W Township Dashboard**, <http://themimu.info/3w-dashboard>

1. Organizations active at Village level in Kachin

In total, 55 agencies reported activities in Kachin state - 13 are engaged in non-IDP response activities only (321 villages), 31 are engaged in activities which target IDP and Non-IDP beneficiaries (268 villages) and 11 are active in IDP-only response activities (157 IDP camps and 108 villages). In all there were 81 village or township based projects in Kachin (non-IDP and mixed beneficiary groups), and 28 camp-based projects (IDP only).

For the development focused (non-IDP response) activities, 44 organizations reported 81 projects under implementation in Kachin that are village or township based. The majority are NGOs. There is some level of agency activity reported in most village tracts, with agencies most concentrated in Myitkyina, Waingmaw Bhamo and Mogaung, and least concentrated in Khaunglanhpu and Tsawlaw which are harder to reach..
