# Overview of 3MDG MNCH Townships (1)

- The 3MDG MNCH program roll-out began in 2013 with full coverage reached in early 2015

State/Regions	2013				2014				2015				2016				2017			
	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4
Ayeyarwady													Piloting transition strategy							
Chin State 1																				
Chin State 2																				
Magway Region													Piloting transition strategy							
Kayah State				CSA																
Shan State				CSA																
									CSA	Conflict Sensitivity Assessment										
										Call For proposal										
										3 month inception										
										Planning and parallel start up preliminary health services delivery										
										Implementation										
										Phase Out										

- As of February 2016, there are 8 Implementing Partners in 34 townships supporting public sector service delivery in collaboration with Township Health Departments:
  - Ayeyarwady - 6 townships (IOM, MdM, Relief International, Save the Children)
  - Chin - 9 townships (Danish Red Cross, IRC, StC)
  - Magway - 5 townships (MSI, StC)
  - Kayah - 7 townships (IOM, IRC)
  - Shan - 7 townships (Cesvi, Relief International, StC)

# Overview of 3MDG MNCH Townships (2)

- In addition, there are **private sector** grants focusing on **family planning services and FP commodities** implemented by:
  - MSI - 15 townships in Ayeyarwady, Chin, Magway ( 2014 to 2016)
  - PSI - 34 townships in Ayeyarwady, Chin, Magway, Kayah, Shan (2014 to 2016)
- There are also **Special Region programs** in Wa and SR4 regions for MNCH, HIV Harm Reduction, tuberculosis and malaria activities implemented in collaboration with Non-State Actors (Ethnic Health Organisations) by:
  - HPA - 9 townships in Wa and SR4 area (2015 to 2017)

# 1. MNCH data collected routinely (1)

Description	Indicators	Data Source
Family Health Care	Delivery by skilled birth attendant	National HMIS
	Delivery by auxillary midwife	
	Institutinal delivery	
	Antenatal care	
Child Health Development	Newborn care	
	Initiation of Breastfeeding	
	Diarrhoea treated at health facilities	
	Pneumonia treated at health facilities	
Family Planning	Contraceptive Prevalence Rate	
Immunization	Penta3	
	Measles	
	Tetanus_2	
Nutrition Promotion	Vit A taken by postnatal mother	
	B1 taken by postnatal mother	
	Iron taken by pregnant women	
	B1 taken by pregnant women	
Geographic information	Demographic data	

# 1. MNCH data collected routinely (2)

Description	Indicators	Data Source
Lives saved	Couple Year Protection	Implementing partner records, Volunteer records
	Emergency Obstetric Care (EmOC) referral	
	EmOC referral in Hard to Reach areas	
	Emergency Child Care (ECC) referral	
	ECC referral in Hard to Reach areas	
Community case Management	Diarrhoea cases (U5) treated by volunteers	
	Pneumonia cases (U5) treated by volunteers	
System Strengthening	Basic Health Staff training	
	Voluntary Health Worker training	
	Volunteer supervision	
	Stock out for essential drugs at volunteer level	

## 2. MNCH Data on Impact and Outcome indicators

- Reporting on Impact and some Outcome indicators is dependent on surveys and modelling, and cannot always be directly linked to interventions under one specific program but are rather dependent on combined effort.

Description	Indicators	Data Source
Mortality	Maternal Mortality Ratio	Census 2014, UN modelling, Lives Saves Tool modelling (DFID) DHS 2016 (result expected by 2016), FRHS (2007), MICS (2009-2010)
	Under five Mortality Rate	
	Neonatal Mortality Rate	
Coverage	Contraceptive Prevalence Rate	
	Diarrhoea_treated with ORS/ORT	
	Pneumonia_treated with antibiotics	

### 3. MNCH Data from completed 3MDG-funded research and special studies

Nr.	Survey	Area
1	Improving maternal, neonatal and child health in Myanmar-optimizing the role of the AMW cadre. Lessons to support a national scale up.	Project area (4 Chin, 1 Ayeyarwady, 1 Shan)
2	Survey of knowledge, attitudes, and practices: Birth attendance and contraception	Ayeyarwady_Dedaye
3	Functioning status of the village health committees in Dedaye Township	Ayeyarwady_Dedaye
4	Role of VHC in community based emergency based referral for MNCH in Middle Island, Nga Pu Daw Township, Myanmar	Ayeyarwady_Ngapudaw
5	Every Child Count: The immunization status of mobile migrant children in Bogale and Mawlamyinegyun Townships, Ayeyarwady Region	Ayeyarwady_Bogale and Mawlamyinegyun

*These studies are published in our web-Library on*  
<http://www.3mdg.org/library>

### 3. MNCH Data from completed 3MDG-funded research and special studies

Nr.	Survey	Area
6	Household survey of maternal, Newborn and Child Health _3MDG project areas in Myanmar (2014)	3MDG townships_PSI
7	Baseline Outlet Survey (2014)	3MDG townships_PSI
8	Barriers to EBF in Ayeyarwady Region _Qualitative finding	Ayeyarwady Region_PSI

*These studies are published in our web-Library on  
<http://www.3mdg.org/library>*

*Some further 3MDG-funded studies are underway.*

## 2016 DATA SOURCES WILL BE EXPANDED THROUGH:

- In 2016, the 3MDG is financing and implementing, jointly with the Ministry of Health HMIS Unit, the **operationalization of DHIS2 system in 26 townships** (out of 34 MNCH townships). In medium-term this will contribute to data quality improvements.
