

**Highlight of the 1st Qtr 2017**

- \* New displacements in Kutkai, Man Wing Gyi (Mansi Tsp.), Laukai and Namtu due to conflict; more than 2,500 people had to flee to temporary evacuation centres and returned to their villages of origin within a few weeks. Besides, more than 6,500 migrant workers from Kokant SAZ returned to their hometowns starting from 6 March 2017.
- \* GAD, RRD, Municipal Committee, well-wisher associations and private donors delivered emergency assistance mainly for new IDPs and migrant workers evacuated in urban locations. WASH Cluster partners responded to IDPs in remote locations including Hpai Kawng (close to the Chinese border). Monitoring and follow up actions are needed to ensure WASH services delivered meet minimum standards.
- \* Draft guidelines for semi-permanent latrines and bathing spaces have been finalized within Northern Shan sub-cluster (WASH) level.
- \* SCI delivered trainings on Hygiene Promotion and Water Treatment for camp committees and hygiene promoters in Namtu in cooperation with Metta and KMSS. SCI also organized a Water Quality Testing training for their staff and invited other WASH cluster partners in Lashio in March 2017.

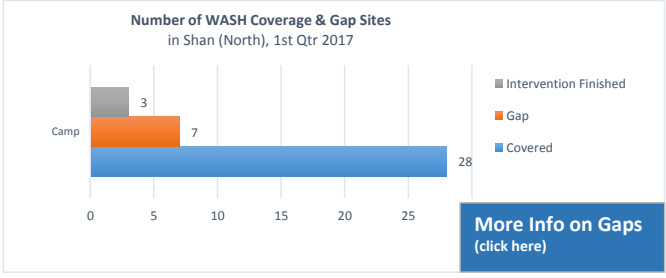

Township	WASH focal Agency
Hseni	Metta
Kutkai	KMSS, Metta
Manton	KMSS, Metta
Muse	KMSS, Metta
Namhkan	Metta, SCI, KMSS
Namtu	Metta

**Disclaimer:**  
 >> WASH Cluster revised indicators based on discussion points from WASH Partners. Started using new indicators in the 1st Qtr 2017  
 >> METTA WASH intervention is finished in Narte camp, Hseni township and METTA temporary WASH intervention is finished in Kutkai (Host High School) and Nam Hpak Ka (Man Mau host school) temporary camps.  
 >> WASH Cluster partners Metta, KMSS and SCI reported data for the 4W Q1 2017.

**WASH Cluster 2017 Q1\_4 W, NORTHERN SHAN STATE (as of 31 March 2017)**

- \* Water coverage considers improved sources
- \* Sanitation coverage considers number of latrines only
- \* Hygiene coverage considers access to soap, sanitary pad and ratio of hygiene promoters to population

Gap in active camps / township	People targetted	Partners	% Water Gap	% Sanitation Gap	% Hygiene Gap
Hseni	196	Metta	0%	0%	0%
Kutkai	4,519	KMSS, Metta	7%	16%	7%
Manton	320	KMSS, Metta	0%	0%	0%
