Mine Contamination: Landmine & Cluster Area
Munition Monitor

In 2017, the Myanmar Information Management Unit (MIMU) in association with the Myanmar Mine Action Centre (MMAC) and the United Nations Development Programme (UNDP) presented an infographic titled "Myanmar Information Management Unit (MIMU) on Landmine & Cluster Area Infographic ID: MIMU_IG002v02".

Published Date: 22 June 2018
Prepared by: MIMU

The infographic highlights the number of landmines and cluster area munitions reported from different regions in Myanmar. It includes a map showing the distribution of these mines and a chart indicating the types of explosion-causing injuries. The infographic also mentions that 60% of victims are 60 years or older, 9% are children, and 9% are women.
