Goal (Global Strategy 2015)

To **reach as many** children as possible, particularly those who are **excluded** or **marginalized, with high-quality programmes that deliver long-lasting benefits.**

Plan International Myanmar

Plan Approach – Child Center Community Development

- Working in partnership is a key strategy of Plan's rights-based Child Centered Community Development (CCCD) approach
- Plan Myanmar is committed to working with partner organizations in all its work and will seek relationships, where parties share a common vision and work together as equals

What we are doing in Myanmar;

- Child Protection and Child Rights (CP&CR)
- Disaster Risk Management (DRM)
- Early Childhood Care and Development (ECCD)
- Maternal & Neonatal Child Health and Nutrition (MNCHN)
- Water and Sanitation, Hygiene (WASH)
