

# HUMANITARIAN NEEDS OVERVIEW (HNO) 2022

- Sets out the challenges facing people and provides a common understanding of the context in which we are responding.
- This is an **advocacy and analysis document** aimed at guiding response decisions.
- The key figure in the HNO is **the number of People in Need (the PiN)**.
- In the second half of 2021 this was estimated at 3m people.
- For 2022, our wider scope of analysis and the deteriorating security, conflict, protection, political and economic situation have seen this exponentially increase.
- For 2022, it is now estimated that **14.4m people are in humanitarian need**.

## HUMANITARIAN RESPONSE PLAN MYANMAR

HUMANITARIAN  
PROGRAMME CYCLE  
2022  
ISSUED JANUARY 2022

# HUMANITARIAN RESPONSE PLAN (HRP) 2022

- **Prioritized and costed strategy** for addressing the needs identified in the HNO.
- Humanitarians have tried to ensure their **response planning (targeting) remains realistic** given the constraints.
- The HRP requires **\$826 million to reach 6.2m people with assistance.**
- This is up from \$385 million in 2021 to reach 3 million people.
- When the plan is published there is no pool of funding automatically available. It is a **joint appeal for funds from donors to do the work we (UN & NGOs) have collectively prioritized.**
