Key factors driving price changes

Kachin

Egg, rice, and onion price increases due to increased transportation costs in Putao, Tanai, and Mansi. In Hpakant increases in the price of rice due to vehicles carrying rice not allowed to pass.

Tanintharyi

Dawei, Yebyu - chickpea prices increased due to less stock and growing demand for pulses produced in Mon state. Most traders and shop owners order pulses from Mawlamyine.

Magway

Pakokku - less onions available on the market and scarcity of Sadawpe pulses during the growing season so prices increased. Magway and Minbu price of peanuts and peanut oil increased due to increased demand locally.

Central Rakhine

Traders mentioned the political situation and transport difficulties.

Yangon

North Okkalapa - onion and chickpea prices increased due to increased wholesale prices.

Shan

NawngHkit, Linhaw, Namtu - mixed oil and egg prices increased due to slightly higher transportation costs.
