November 2015

HIGHLIGHTS OF THE MONTH

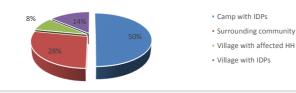

۶ Household water treatment coverage continues to be inadequate in many sites due to filter breakages, inappropropriate filter usage etc

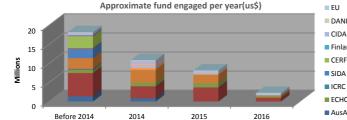

WASH Cluster

- > Desludging of latrines continues to be a problem as sewage treatment stations reach capacity
- > Hygiene kit distribution is changing from blanket to targeted distribution in some sites
- > The construction of latrines with shelters continues for returns projects in Kyauktaw
- > Funding for several sites is nearing the end, in November and December 2015
