

HEALTH

Source of information

The information of acute watery diarrhea and influenza like illness are received from Rakhine Early Warning, Alert and Response System (EWARS). Note that real-time EWARS monitoring is practiced, and that necessary actions are independent of this analysis.

Detailed information for standard operating procedure - <http://bit.ly/33tBDiX> and database manual - <http://bit.ly/36ghhfN>

Formula for proportional morbidity: Numerator is the number of acute watery diarrhea cases (OR) number of influenza like illness (new cases only) divided by the denominator of total number of consultations in the same area during the specified time period.
