

COVID-19 Information Support Unit (CISU)

A temporary initiative to collate available knowledge/information related to COVID-19 in Myanmar to facilitate the work of key actors in data-driven decision making

- **Monitor and map data** from different sources
- **Support information and knowledge creation** where this does not duplicate existing resources
- Field **queries from Donors and other partners**
- **Disseminate public information** through the MIMU website.
- **Build an understanding of information flows**
- Produce a brief **weekly summary** of new information/knowledge for circulation to the Access to Health donors and UNCT.
