

CCCM/ SHELTER/ NFI Cluster Analysis Report (CAR) - Central Rakhine State, Myanmar

January - December 2019

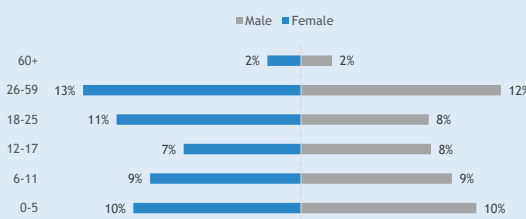

# of IDP locations	24
# of IDPs	130,886
# of IDP Households	24,844

In Myanmar, the Shelter/NFI/CCCM Cluster was activated in January 2013. By March 2013, the CCCM Cluster became operational in Rakhine State. Currently 3 Camp Management Agencies undertake substantial work for the CCCM Cluster: data collection, coordination, monitoring of services, community mobilization and capacity-building. In addition, one agency serves as a CCCM Focal Point, which ensures communication between the camp population and the UNHCR co-led CCCM Cluster. The objective of the CCCM Cluster remains to ensure all of the priority camps, camps that contain the majority of IDPs, have a dedicated Camp Management Agency, delivering coordinated assistance in line with the rights and needs of the displaced and where possible preparing them for life after displacement.
