

Plan International Myanmar's Earthquake Response

Update #5, September 25, 2025

Until we are all equal

Myanmar Earthquake six months on

Plan International Myanmar is delivering humanitarian support in **ten townships** in the most earthquake-impacted areas of Mandalay and Sagaing.

Through our lifesaving aid, we have reached **83,179 people (55.5% female)** affected by the earthquake in the two regions. We actively engaged with sector clusters at the local and national level, local authorities and local civil society organisations for effective distribution and coordination in the quake affected areas. We contributed to a joint-Rapid Gender Analysis with UN and NGOs to ensure gender response humanitarian actions are put into place. Moreover, Plan International Myanmar is also participating for a joint early rapid needs assessment for recovery phase.

Six months on, we are initiating early recovery efforts, prioritising the most vulnerable girls, women and their families.

Earthquake response

Target: 35,000
(60% girls and women)

Injured: **5,000+**

Displaced: **Over 200,000**

Homes destroyed: **Over 50,000**

Infrastructure damage: **\$11 billion**

(data source: UNOCHA, World Bank)

Response reach (as of September 17)

Total people reach	83,170
Girls	11,793
Boys	10,102
Men	26,906
Women	34,369
Pregnant and lactating mother	293
Person living with disabilities	326

Our immediate response and relief key updates:

Plan International Myanmar was on the ground within **36 hours** of the quake, initiating a rapid needs assessment and planned for earthquake response. With our partners, we delivered the following as a lifesaving support to the most vulnerable, in particular girls and women.

Response (as of September 17)

2850 shelter kits were distributed

1400 women essential supply kits provided to young women

300 family kits (hygiene and sanitation items for family members) distributed

35 mobile toilets, water tanks, and handwashing stations were installed

1,120 hygiene kits and **4 bathing spaces** distributed

3,922 food (biscuits, noodles, rehydration drinks) pack provided

2,340 households were provided clean drinking water

2,869 essential water containers (jerry can, buckets, tanks and bottles) distributed

5,300 children attended child friendly space

12 safe delivery kits (surgical glove and blade, soap, apron, bandage, plastic bed sheet) provided to health facility

1,025 people (693 children and 323 care givers) attended back to learning campaign before opening of the schools

52 teachers (40 female) were trained on mental health and psycho-social support for their wellbeing and that of their students.

138 people including volunteers and partner staff oriented on safeguarding

Early recovery priorities

We continue our earthquake response in the selected townships of Mandalay and Sagaing through a localisation approach with the following priorities for early recovery:

- ✓ Restoring livelihood and generating income of the affected families
- ✓ Renovating damaged schools & ECCD centres and set up school WASH Facilities and providing learning materials
- ✓ Setting up temporary learning spaces
- ✓ Safeguarding awareness to young people and volunteers
- ✓ Water, sanitation and health and hygiene (WASH)
- ✓ Capacity strengthening of local partners in delivering the support

Accountability to affected population

Plan International Myanmar established **community feedback mechanisms** and distribution and project sites since the beginning of the earthquake response.

Community members and recipients of our humanitarian assistance have been able to raise their concerns and make recommendations, so that the response is people oriented, and their voices are heard and acted upon.

Number of feedbacks received: 338

Request for assistance	113	Female	228
Request for more information	94	Male	107
Expression of Gratitude	86	People with disabilities	4
Others/miscellaneous	45	anonymous	3
