Myanmar Health Assistant Association (MHAA) is organized with Health Assistants and is a national association of public health professionals striving towards accessible and equitable quality public health services through health promotion, prevention and control of diseases. MHAA stands as a united, independent organization earning public trust and international recognition. MHAA works in Myanmar to execute health programs that focus on strengthening and enhancing community access to coordinated, effective, and comprehensive health care services. MHAA is actively implementing programs in 94 townships of Myanmar in the areas of disease control, RMNCHN, WASH and emergency response. Accountability, respect for human dignity, empathy, non-discrimination, integrity, and professionalism are among the MHAA's core values. Please visit [www.myanmarhaa.org](http://www.myanmarhaa.org) to learn more about the MHAA.

## **Key Responsibilities**

### **1. Clinical Oversight and Service Delivery**

- ❖ Provide clinical leadership and technical oversight for integrated Health and Nutrition services to ensure high-quality and safe service delivery.
- ❖ Provide medical consultation through teleconsultation platforms for patients referred by Project Staff and Volunteers.
- ❖ Review patient symptoms, medical history, and assessment findings to provide appropriate medical advice and treatment recommendations.
- ❖ Support remote clinical decision-making and ensure appropriate follow-up for patients requiring further care.
- ❖ Participate in or conduct mobile clinic visits as necessary to provide direct clinical services, supervision, and technical support to field teams to ensure high quality service delivery.
- ❖ Ensure that outreach health service activities related to environmental and waste management are managed in accordance with donor protocols.
- ❖ Manage project medical stock records while ensuring proper targeting, forecasting, and timely support to field project areas.

### **2. Technical Support and Capacity Building**

- ❖ Provide technical guidance and support to project staff on implementation of health activities, including ANC, PNC, newborn care, PHC services, management of common illnesses, Perinatal Mental Health (PMH) services and referral procedures.
- ❖ Support quality implementation of community-based health activities conducted by Project staff and Volunteers.
- ❖ Deliver capacity building and orientation sessions for project staff related to health service delivery and clinical protocols.
- ❖ Support implementation of Perinatal Mental Health screening, counselling, and referral while ensuring confidentiality and safeguarding principles.

### **3. Quality Control and Monitoring**

- ❖ Conduct regular review of patient records, teleconsultation cases, and health activity documentation to ensure compliance with organizational and national clinical standards.

- ❖ Identify gaps in service delivery and recommend corrective actions to improve quality of care.
- ❖ Conduct supportive supervision and monitoring visits across project areas to ensure adherence to clinical protocols and service quality standards.

#### **4. Emergency Referral Verification and Support**

- ❖ Review and verify emergency referral requests submitted by project teams to ensure eligibility and medical necessity in accordance with project referral guidelines.
- ❖ Provide medical endorsement for emergency referral cases and ensure appropriate referral pathways to health facilities.
- ❖ Coordinate with relevant health facilities to facilitate timely and appropriate patient management.

#### **5. Coordination, Reporting and Other Responsibilities**

- ❖ Coordinate with project teams and relevant stakeholders to ensure effective implementation of teleconsultation and referral services.
- ❖ Maintain accurate documentation and contribute to preparation of project reports related to teleconsultation and referral cases.
- ❖ Support monitoring and evaluation activities and provide technical inputs when required.
- ❖ Perform any additional tasks assigned by the supervisor.

#### **Skill and Requirement**

- Medical Doctor (M.B.B.S) with valid registration from Myanmar Medical Council.
- At least 1 years of experience in maternal, newborn, and child health (MNCH), nutrition, or primary health care programs.
- Experience in mobile clinic services, teleconsultation support, or community-based health programs is an asset.
- Strong knowledge of MNCH, nutrition interventions, referral systems, and clinical case management.
- Understanding of Environmental and Social Safeguards (ESS) and humanitarian program standards is preferred.
- Good level of written and spoken English.

- Computer skills in MS Office and digital communication tools.
- Ability to work systematically, independently, and under pressure in challenging field environments.
- Strong interpersonal and communication skills and ability to work with multi-disciplinary and multi-cultural teams.
- Respect and adherence to Myanmar Health Assistant Association policies and procedures
